

BTS: Becoming a Member

Before starting, you'll need to open a Cryptocurrency Wallet, like Metamask or Trust Wallet, and load it with USDT on either the Ethereum ERC20 or Tron TRC20 network (to the value of the package you'll be purchasing) and a small amount of Ethereum or Tron to use as gas fees (if using Metamask or Trust).

If that's new to you, don't worry and don't be put off... simply ask the person who introduced you (your Sponsor) for help.

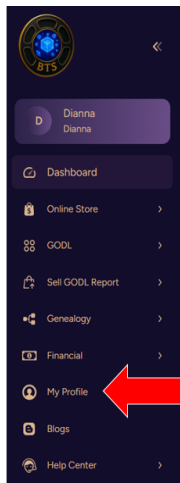

Follow the Referral Link sent to you by your Sponsor. This will take you to the Registration page, auto-populated with your Sponsor's details.

If you have landed on the Registration page without following a Referral Link you will need to insert your sponsors Username in the referral field. If in doubt, please revert back to your Sponsor for this information.

Tick the boxes to Agree to the Terms of Service and confirm your sponsors details are correct.

Then click Register.

You will now be taken to the BTS live portal, where you will see this message pop up. This is just a display advisory pop up and you DO NOT need to click anything.

Before making your Membership Package selection, you will need to set up your GODL receive wallet address.

To do this, click off this message by clicking anywhere outside the pop up, then...

...click MY PROFILE third from the bottom of the menu listing located on the left hand side of your portal.

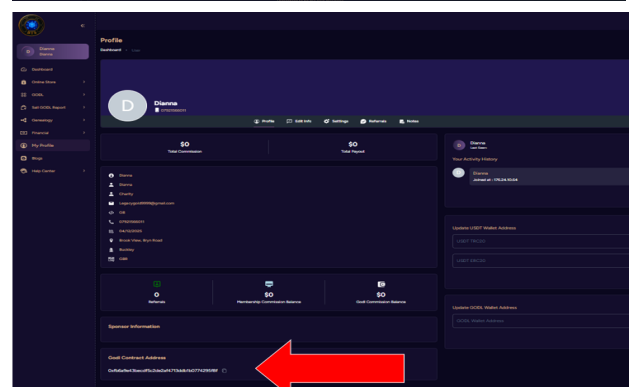

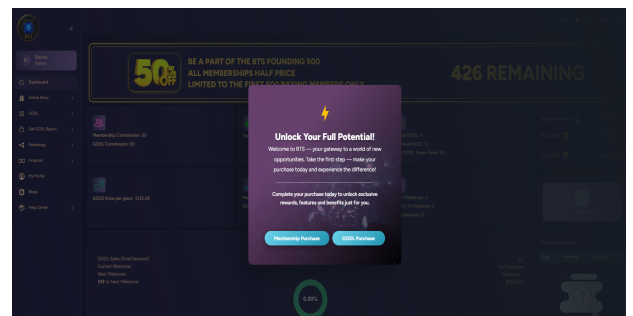

At the bottom of your PROFILE page, on the left you will see the GODL contract Address.

METAMASK

Trust Wallet

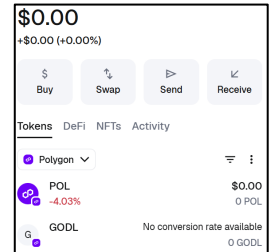

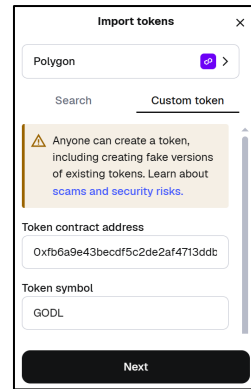

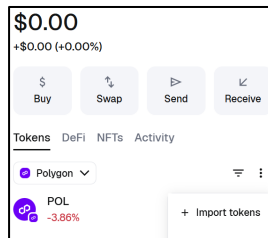

You now need to copy this Contract Address and import the GODL Token into either your Metamask or Trust wallet on the Polygon Network.

Godl Contract Address

0xf6a9e43becdf5c2de2af4713ddb1b0774295f8f

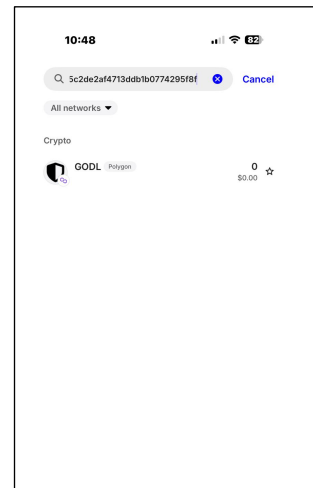

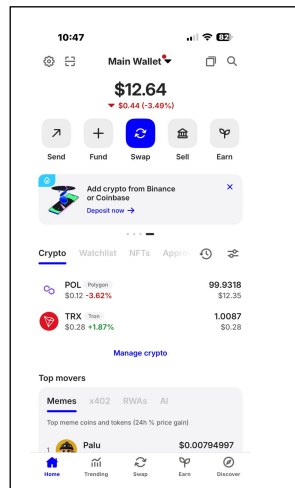

In Metamask:

- Go to the Polygon Network
- Import Token
- Custom Token
- Paste the GODL Contract Address
- Click Next
- Import the token.

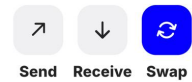

In Trust:

- Click on the magnifying glass
- Paste the GODL Contract Address
- Click on GODL

Trust Wallet

Receiving address

As always, if you're unsure, then ask your Sponsor for help.

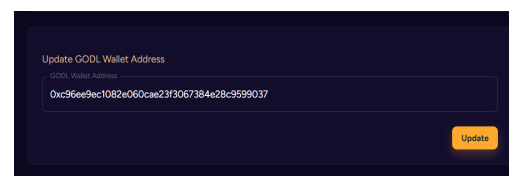

Now you will need to add your GODL Receiving Address into your Back Office so that you can receive GODL directly into your wallet.

Click/Tap on RECEIVE (top right of the screenshots above), then scroll down to find the POLYGON network.

Copy the address (it's usually the address for your main wallet, but may differ), then go back to your Back Office.

On your MY PROFILE page, paste your Receiving wallet address (which you just copied) into the GODL Wallet Address field, then click UPDATE. You will see confirmation that you have updated your wallet address.

Metamask Wallet

NEXT YOU HAVE A CHOICE...

1. Choose / purchase your Membership Package
2. Purchase GODL

You don't need to buy a membership in order to buy GODL and likewise you do not need to buy GODL in order to buy a membership. However, if you are wanting to take advantage of what is on offer in the membership packages AND gain a discount on future GODL purchases, then your best option would be to purchase your membership first (HIGHLY RECOMMENDED).

Your sponsor can offer guidance on which membership is best for you BUT PLEASE REMEMBER that BTS Affiliates are **NOT QUALIFIED to offer financial advice** and it will just be their own opinion.

Go the left hand menu and click ONLINE STORE.

Assuming you have chosen the BUY MEMBERSHIP option you will now see the 4 available options.

For the purposes of this example we're going to choose the Executive level Membership.

However should you choose to do so, you can upgrade at any time to a higher level of Membership, for instance to Director which offers the best value for money, simply by paying THE DIFFERENCE between your original level and your higher level choice.

Confirm your selection by clicking BUY NOW and you'll be taken to the Checkout page.

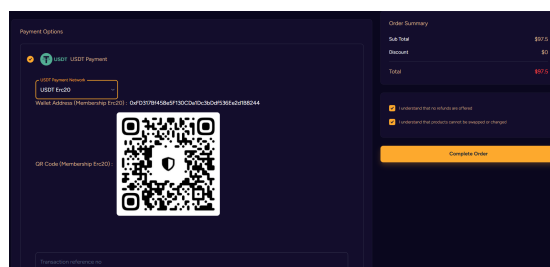

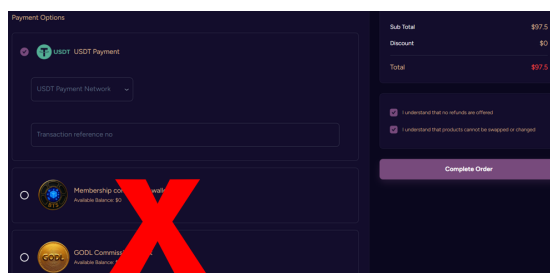

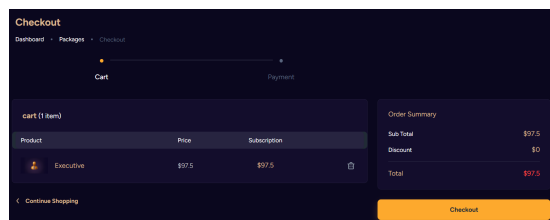

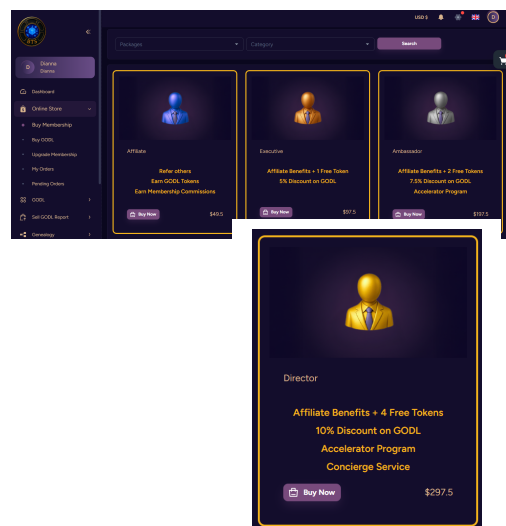

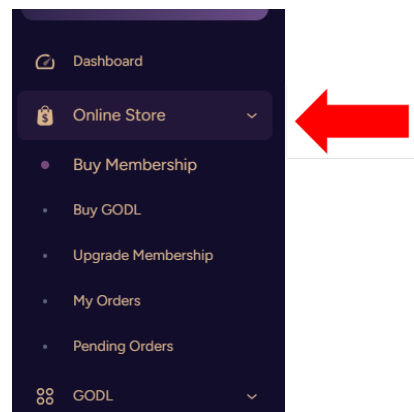

Click the CHECKOUT button to confirm your choice. You will then be taken to the PAYMENT OPTIONS screen.

You will have the option to pay your USDT using either TRC20 or ERC20. In the dropdown menu you will be able to select which one you choose.

For all first time membership purchasers you will need to send USDT into the wallet address displayed and will not YET be able to use internal commissions at this point so please do not tick either of the MEMBERSHIP COMMISSION or GODL COMMISSION boxes shown on the screen.

Once you have made your selection the wallet address and QR code will be displayed.

Using either the QR code or wallet address you will now be able to send the value of USDT for the package you have chosen to purchase.

Once you have sent your USDT from your chosen wallet to the BTS/GODL wallet you must locate your TXID (Transaction Hash ID). This is your proof that the transaction has been done and recorded on the Blockchain.

Copy and paste it into the transaction reference no. field shown here.

Next click the COMPLETE ORDER button

The screen will automatically go to your “Pending Orders” page.

CONGRATULATIONS...You have now successfully completed your order for your membership!

Once it has been approved by admin you will receive a second email, in addition to your WELCOME email, with the subject line SEND PAYMENT EMAIL.

This could take up to several hours for approval. Admins are located in GMT time zone and this is currently a manual approval process.

You'll see your 1 free GODL token (included with Executive membership) on your DASHBOARD, in addition to the physical token in your Metamask or Trust Wallet. Remember that 1 GODL token is the same value as 1g of Gold.

Importantly, you'll also now see your referral link which, when shared with others, will ensure YOU are registered as their Sponsor, qualifying you for commissions on the purchases of anyone you introduce.

Speak to your own Sponsor for details of proven methods of sharing this unique opportunity and again,

Welcome to the BTS Community.
